

LittleMate™

For small and independent theatre owners looking to implement self-service kiosk technology at an affordable price, the **LittleMate** is the best solution on the market.

Designed to withstand constant use, the **LittleMate** is prepared to help you provide your guests with the latest technology so you and your team can focus on other key activities. And as you and your guest's needs grow, the **LittleMate** grows with you. With an optional 2D imaging bar code scanner, EMV PED and RFID NFC reader to accommodate digital wallets you will be ready to provide a superior experience and excellent service when and where your guests need it.

Capable of working with the latest Cloud- or Server-based applications from suppliers you know, the **LittleMate** connects and integrates with your software so that guests can buy tickets, print tickets purchased online, select seats, and even order food and beverages. With the power and efficiency of the **LittleMate**, the traditional box office is a thing of the past leaving you with almost no lines and happy guests.

And with an emphasis on accessible design, the **LittleMate** is an extremely easy kiosk to maintain. Its modular approach allows for easy and cost-effective replacement of the primary modules without tools so that nearly anyone can handle the job. It is also backed by a 3-year depot Service Warranty making it one of the most reliable entry-level kiosks for the theater industry available today.
